

Greenkey Wind Spinners

- Contents:**
- 2 x Spinning Blade**
 - 1 x T Pole (with 2 x nut and 2 x flower end attached)**
 - 1 x Base Pole**
 - 1 x 5 Prong Foot**

- 1. Unscrew one flower end from the T Pole and attach the spinning blade between the nut and the flower end.**

For optimum performance, ensure that the welded ring (ie not the raised section) is located on the inside (against the nut) to ensure that the bearing can rotate freely.

- 2. Unscrew the second flower end from the T Pole and attach the second spinning blade (as above). Ensure the blades face in opposite directions.**
- 3. Attach the Base Pole to the T Pole**
- 4. Attach the 5 Prong Foot to the Base Pole.**
